Description

Phuket Thailand Private Pool Villa for Sale

Looking for a green and smart home in Phuket? Look no further than this small hillside estate that offers three types of stunning villas. With a commitment to sustainability and eco-friendliness, all homes will be certified with EDGE, making them intelligent and energy-efficient.

The open plan kitchen, dining, and living room layout of each villa can be customized to suit your unique preferences and needs. Plus, with a joint effort from experienced teams responsible for design and construction, you can rest assured that every detail has been thoughtfully planned out.

Developed by Phuket Best Way, a seasoned developer of eco-friendly projects like Layan Green Park Phuket, the villas have been designed by RDM, who have successfully completed over 100 projects in Thailand. Additionally, the project has partnered with ARDON for green consultancy, Poolnologies for eco-pools, Hisense VRF for air conditioning systems, and Comcongroup for surveying, ensuring that every aspect of the development is top-notch.

Each villa will come fully furnished, and payment plans are tailored to correspond with the construction progress. Don't miss out on the opportunity to own a beautiful and sustainable home in one of the most sought-after locations in Phuket!
