Description

Extraordinary Solar Phuket Pool Villa for Sale

This Phuket private pool villa is an impressive courtyard estate set on a spacious land plot of 1,500 sqm. It features a solar power system, offering eco-friendly living.

The villa consists of five interconnected buildings surrounding a large resort-sized central swimming pool, creating a private and tranquil environment. The main rooms offer views of the pool, reflective ponds, and tropical gardens, striking a balance between public and private spaces.

Crafted with meticulous attention to detail, the villa boasts imported Italian tiles and light-colored materials, exuding a timeless and elegant tropical ambiance. It comprises seven bedrooms, including a dedicated building for the master suite, additional bedrooms in the pool and upper levels, three living areas (two covered outdoor spaces), a modern kitchen, pantry, utility and storerooms, connecting corridors adorned with oriental artworks and sculptures, carport, front gardens, and ponds. The villa is designed for families and entertaining.

Located in the prestigious residential area of Bang Tao, the villa enjoys a quiet setting among similar large residences. It is approximately 2 km from the beach and the amenities of Boat Avenue, including international supermarkets and restaurants.

Notably, the property has its own water supply, extensive solar electricity generation and water heating system, and low-power LED fittings throughout, resulting in minimal running costs for a property of this size.

The price of the villa includes furniture (excluding personal effects and certain artworks) and highlights its green features, such as solar heating, electricity generation, and low-wattage LED devices, contributing to an eco-friendly home.

The accompanying video showcases the newest phase of Anchans, Anchan Hills, giving viewers a glimpse of the exceptional quality and design offered by the development.
