A pet-friendly concept designed for your beloved companions. The inner grounds include pleasant, quiet pathways for walking with dogs. Storage needs are always relevant for large families and those with active lifestyles. Now, organizing storage for bulky or seldom-used items has become easier. The project features an indoor coworking space and two shared terraces for work and relaxation, offering views of the building's main facades, the surrounding island, the pool, inner courtyard, and even the kids' area, allowing you to keep an eye on your child from a distance without disrupting their play. Exercise in natural light — not in a closed, dark space. The gym is located on the first floor and features panoramic windows overlooking the inner courtyard and pool.

Bamboo Forrest consists of three separate buildings, which are visually united into an ensemble, organically growing out of the dense greenery of the island—135 units with different layouts to suit every taste: from spacious studios to luxurious three-bedroom apartments.
