Description

Tri Vananda – Luxury Pool Villas in a Nature-Led Phuket Community

Tri Vananda offers a distinctive residential lifestyle among the forests and lakes of Pru Jampa, Thalang. Planned across approximately 600 rai, or 237 acres, the community brings together private pool villas, landscaped natural surroundings, and a focus on wellbeing and multigenerational living. The featured TAL212 residence presents the two-bedroom Vana 2 design, with 333 sqm of villa area on a land plot listed at approximately 557 sqm.

The Vana 2 layout centres on comfort, space, and a close connection with the outdoors. Two generous master bedrooms provide privacy for owners and visiting family, while the spacious living and dining area incorporates a pantry and a four-metre-high ceiling. A full-width pool deck opens onto a private swimming pool measuring approximately 4 × 10.5 metres, creating an inviting setting for quiet mornings, outdoor dining, and relaxed entertaining.

A multifunctional room beside the parking area adds flexibility for individual needs. The developer's presentation describes the residential villas as fully furnished and equipped, with designs that combine contemporary comfort and natural surroundings. The featured residence also includes ensuite accommodation, air conditioning, kitchen facilities, and private parking, making it suitable for extended holidays or everyday living.

The wider villa collection offers two-, three-, and four-bedroom configurations across the Vana and Nanda design families. Vana places emphasis on private courtyards, generous shared spaces, and family connection, while Nanda explores natural light, ventilation, and contemporary tropical architecture. This range allows buyers to compare different layouts and settings within the community.

Nature is central to Tri Vananda's master plan. The developer's presentation proposes development on less than 15% of the overall land, retaining extensive forests, lakes, and wetland areas. The community concept includes cycling and jogging trails, a community garden, and spaces for outdoor recreation. The Community House brings together dining, social, and movement spaces, with family facilities including a Tweenie Club and outdoor play areas. JAMPA restaurant adds a farm-to-table dining focus linked to locally grown produce.

The Thalang location provides access to Phuket's northern beaches, international education, shopping, and travel connections while maintaining a secluded residential atmosphere. The developer's presentation places Phuket International Airport approximately 15 minutes away. For buyers seeking a spacious home within a community shaped around nature and wellbeing, Tri Vananda offers an alternative to a conventional villa estate.
