This low-density, low rise modern tropical real estate Phuket design with strong and deliberate emphasis employed to maximize the view, whilst protecting privacy. Careful selection of appropriate materials helps to ensure the practicality and durability of the construction without compromising the aesthetic or function of the suits of this sea view condo.

Each block is constructed allowing excellent natural light, whilst the generous windows and full height doors allow optimum ventilation reducing reliance on air conditioning. The best investment returns come from condominiums in resorts offered for rent or built for sale to overseas buyers. Profit on rental potential is even greater because there is no capital gains tax for private investors, as well as very low ongoing taxes.
