Bathrooms	2
Land Size	295 area
Building Size	207 sqm

Description

Thailand Property

This exclusive Thailand property has been designed by one of Phuket's leading architect firms, Oracle Architects. The villa is designed in a modern tropical style with white cream colors and light wooden features to suit the tropical environment and climate in Phuket.

The eco-energy design with the large windows and doors allows natural airflow throughout the building creating a natural way of cooling it down. The smooth transitions between the indoor area and outdoor area give a feeling of one large area and the sunken pool deck perfectly connects the indoor space with the waterfall, swimming pool, and sun deck. Each of the bedrooms has en-suite bathrooms, a large wardrobe, and their own private terrace with access to the tropical garden. Set in a quiet area in the heart of Kamala among locals and foreigners.

Shops, restaurants, and the amazing Kamala beach is just a 10 min walk away. Nearby it's possible to go explore waterfalls, enjoy a massage at one of the many spas in the area, or go for a game of golf in one on the many courses. When joining the Rental Program you are guaranteed a minimum of 5% return on your investment per year for 5 years. But we think the villas have the potential to get an even greater return than 5%.

Therefore the return on investment increases the better the villa is performing – We think it's only fair your return reflects the income of the villa. Depending on your villa earnings you will earn a 5-8% return on your investment. The overall layout of this Thailand property has been designed with the aim of creating the feeling of a shared community.

By placing the villas in a circular shape with all entrances facing each other, giving a warm sense to this residential neighborhood.
